

Sustainable Asset Management Solutions (SAMS)

Leading Provider of Sustainable ITAD & E-Waste Lifecycle Solutions for a Greener Future

Company Overview

Established in 2017, Sustainable Asset Management Solutions (SAMS) is a Singapore-based leader in electronic waste (e-waste) management. We specialize in providing secure, compliant, and environmentally responsible solutions for businesses and individuals to manage their electronic waste effectively. Our services encompass e-waste recycling, IT Asset Disposition (ITAD), secure data destruction, product destruction, and data center decommissioning.

Core Services

1. Electronic Waste Recycling

SAMS offers environmentally secure electronics recycling programs for processing various computing equipment, such as desktops, laptops, tablets, and communication devices.

2. IT Asset Disposition (ITAD)

Our comprehensive ITAD solutions include secure data destruction, repair and refurbishment, asset value recovery, and environmentally friendly disposal of obsolete IT equipment. We align all our business transactions to prevailing regulatory, security, and operational compliance requirements, ensuring that your company's IT assets are properly discarded in a secure, compliant, and eco-friendly manner.

3. Secure Data Destruction

We provide certified processes, including data erasure, degaussing, and physical destruction, to ensure complete data sanitization of all data-bearing devices. Our services adhere to international standards such as NIST 800-88r1, DIN 66399, and DOD 5220.22-M, ensuring that sensitive information is securely and irreversibly destroyed.

4. Product Destruction

SAMS offers secure destruction services for defective, expired, or counterfeit products to protect brand integrity and prevent unauthorized distribution. Our processes ensure that such products are disposed of responsibly, mitigating potential risks to your brand and consumers.

5. On-Site Collection Services

We provide convenient and secure collection of e-waste from client premises, ensuring compliance with data protection and environmental regulations. Our logistics team ensures timely pickups and safe transportation of electronic waste to our facilities.

6. Data Center Decommissioning

SAMS offers comprehensive data center decommissioning services. Our experienced team ensures secure data destruction, efficient asset removal, and environmentally responsible disposal or recycling of equipment, all while maintaining compliance with relevant regulations.

Certifications & Compliance

SAMS is committed to maintaining the highest standards of quality, security, and environmental responsibility. Our certifications include:

- **NEA General Waste Disposal Facility (GWDF) Licence:** Authorized by the National Environment Agency (NEA) to operate as a general waste disposal facility, ensuring compliance with Singapore's waste management regulations.
- **ISO 9001:2015** – Quality Management System
- **ISO 14001:2015** – Environmental Management System
- **ISO 45001:2018** – Occupational Health and Safety Management System
- **ISO 27001:2013** – Information Security Management System
- **ISO 27701:2019** – Privacy Information Management System
- **R2v3 Certification** – Responsible Recycling Standard for Electronics, covering downstream recycling chain, data sanitization, test and repair, & material recovery.
- **bizSAFE STAR** – Recognition for Excellence in workplace safety & health management.
- **TAPA FSR Level A** – Transported Asset Protection Association's highest level of certification for facility security requirements.

Sustainability & ESG Commitment

- **Zero Landfill Policy:** We ensure that no waste ends up in landfills by maximizing recycling and recovery efforts.
- **Carbon Footprint Reduction:** Through extending the lifecycle of electronic products and utilizing energy-efficient processes, we actively reduce carbon emissions.
- **Downstream Vendor Management:** We assess and monitor our downstream partners to ensure they adhere to safe and responsible recycling practices.
- **Data Breach Risk Management:** Implementing stringent data destruction protocols to prevent unauthorized access to sensitive information.
- **Regular Auditing:** Our operations undergo regular internal and third-party audits to maintain compliance and continuous improvement.
